The Kenda Tennessee Knock Out has become one of the staple Hard Enduro events in the States. With the growth of this style of racing, Kenda has evolved their lineup of tires to give competitors that extra edge on the slick, rocky terrain found at all Hard Enduro events. Their Sticky compound and application-specific tread patterns are a must have when attacking some of the world's gnarliest terrain.

If you've yet to try the Triple or Equilibrium, this is your chance to do so for free. Train hard, have fun and post your training, but regardless of the contest winner and your placement at the TKO, remember to always enjoy a Pint Full of Awesome!
